

Autism Connections offers a Diagnostic Package in collaboration with the Center for Autism Spectrum Disorders. This service provides a full autism diagnostic assessment including the ADOS, ADI-R and resource plan for families. It is appropriate for individuals of all ages.
 A free intake appointment is required to utilize our services.

Therapeutic Services

Our Therapeutic Services are outcome based with focus on the specific needs and interests of the individual with Autism Spectrum Disorder. Our groups include typical peers. The following options are available:

- | | |
|--------------------------|-----------------------|
| Social Skills Groups | Art Therapy |
| Play-based Therapy | Music Therapy |
| Individual Social Skills | Individual Counseling |

Behavior Services

The principles of Applied Behavior Analysis, an evidence-based therapy effective for building skills, is the basis of our In-Home ABA program and Behavior Consultations. All Behavior Services are supervised by a Board Certified Behavior Analyst. ABLLS-R Assessment is used to develop the treatment plan.

- In-Home Applied Behavior Analysis is designed to:
- | | |
|-------------------------------|---|
| Improve basic skills | Teach academic and communication skills |
| Increase functional behaviors | Decrease challenging behaviors |

- Behavior Consultations are designed for families struggling with challenging behaviors and includes:
- | | |
|-----------------------------------|-----------------------------------|
| Comprehensive behavior assessment | Family Training |
| Written Behavior Plan | Support to implement plan at home |

Support Services

Autism impacts the entire family. We have many Support Services available for every member of the family. The following programs are available:

- | | |
|---------------------------|--------------------------------|
| Family Events | Mom's Support Group |
| Sibshops | Individual Counseling |
| Parent Training Workshops | Kids Night In/Parent's Day Out |
